Letter To The Editor

Dear Sir:

My attention has been drawn to an editorial in the Calgary Albertan of June 1st, reprinted in The Pioneer, in which I am smeared and likened to Senator McCarthy, masmuch as our aim seems to be the same, i.e., the exposure and rendering impotent of communists, I do not object to this aspect of the withorial.

ido not object to this aspect of the cittorial.

But the charge made by the Manchester Guardian, and reprintdend, that a statement I made before the Fort Macleod Chamber oil Commerce last March is "an unmitigated uniruth," demands a reply. To set the record straight, I did not say that the Manchester Guardian had commended Sen. McCarthy, as was reported in the MacCarthy, as was reported in the MacCarthy as was reported in the MacCarthy as was reported in the MacCarthy as was the basis of their delamatory remarks about me. What I did say was that Mr. Allistait Cooke, U.S. correspondent for the Guardian, had commended the investigations of the McCarthy commute probing communist infiltration. As a matter of fact, knowing that the Guardian actionally is a McCarthy critic, I pointed out that the Guardian is not a right-wing paper in order to indicate that Mr. Cooke's appraisal would not be the result of influence or pressure exceed by his editorial superiors. Inasmuch as the editorial you reprinted reflects upon my integrity,

erred by his editorial superiors.

Inasmuch as the editorial you reprinted reflects upon my integrity,
I know that you will, in a spirit of
fairness, give me the opportunity of
placing this reply before your

Sincerely yours,
RON GOSTICK

Miss Heien Swalm of Didsbury presented her piano pupils in their fourth annual concert for parents and friends at the United Missionary Church, Dildsbury, on Friday evening. The pupils ranged in grades from one to seven. A total of 53 pupils comprised the class for piano and theory. Of these, 21 in the various grades took examinations with the Toronto Conservatory of Music in Oids on June 7.

Bouquets of spring flowers and illacs flanked the grand piano and presented a beautiful setting for this annual event.

The first item on the program was presented a beautiful setting for this annual event.

The first item on the program was presented by Linda Poon, six-year-old first-year pupil from Calgary. Dressed in Oriental costume, she drew applause as she played Lazy Mary and Papa Hayden. This was followed by various other little folks who did their best with piano solos and duets. As the program progressed the older pupils in higher grades came in for rounds of applause as they presented their numbers.

Muscianship, precision and confidence were displayed by each pupil from the youngest to the older. It was gratifying to note the improvement and growth musically as these junior and intermediate pupils performed at the piano. Each number was well chosen to fit the capability of the pupil, and the entire program was enjoyed by a capacity audience.

On behalf of the teacher, Rev. C. Armstrong made the presentation of certificates and awards to those pupils who were successful in.

The driver must, or should be constantly on the alert. But when he reaches a long country road, the situation changes. He becomes tired, bored and recuts much less quickly when faced with an emergency. Since he is travelling at least twice as fast as in the city, an emergency can be serious. This is a further demonstration that country driving is more dangerous than driving in the city.

Safety experts suggest that on the correction of the control of th

They suggest the family pack a thermos bottle of hot coffee, even if only for the driver, just in case he becomes fatigued and there is no cating place handy.

Observance of other safety hints also is suggested. These include the driver's window open, regulating speed for driving conditions, rather than just obeying speed laws, and staying at least one carliength for each 10 miles per hour behind the car in front.

"Drivers also should bear in mind that dimning headlights is not just a courtesy; it is vital for safety. By Bilinding the approaching driver, one is putting his own life in danger. The courteous driver also dims when following other vehicles," said the safety director.

5th. Better farm management.

1 only quote reference to the fifth method. Better management—

"In the last, but probably most hopeful method, management we may include the wise use of agricultural chemicals such as fertilizers and pesticides. However, here at present, unanswerable question: What has the magnitude of the difference between what is possible and what is likely to happen? would ill become me, as a public servant, to enlarge upon the limitatin to food production imposed by bad farming. But it is fair enough to ask my farmer friends how much they think food production in Canada would be increased if all farmers were as efficient as the present top 10 per- cent. Probably 20 to 25 per cent might be a reasonable estimate. If this is a possible increase, is it likely to be achieved and if so when?"

I suppose that many people feel
that way about such a contest —
Yet for those who play any partticular game, it has its own fascination. When a crippled golfer
beats the world's best, the influsiage and determination and amazing skill that is displayed. Panating skill that is displayed. Panating the sort, they say, it's a great
game. So it is with chess, Those

real sense of victory or defeat.

Anyway, the inevitable squabble arose, in this chess contest, over a time clock which apparently had tired of the deep strategy being worked out, and which had gone to sleep for a spell. This gave the Russian player an advantage over Reshevsky, the U.S. ace. The game eventually ended in a draw, by the way, But it does illustrate the tension that exists, for the argument was just as bitter as over a disputed goal in hockey or a run scored in baseball, when the ump was asleep, or looking at the blonde in the third row.

This interest in sports of various types goes back into the centuries. Beyond all doubt it is a good and healthful thing when rival groups can meet, and according to the rules of the game, contest for the supremacy. It helps relieve international and personal tensions far oftener than it aggravates them.

To add a moral to this tale, the same thing applies to religion. To anyone interested in the things of God, the dealings of God with man and man with God, is absorbing, interesting and vital, so that he would give his utmost, even life it-self, to have a part in that great-es of all contests between Christ and anti-Christ. Religious people squabble amongst themselves at times, but the outlook has a hope-lul side. To the sportsman, there is a belief that those who play to-gether can learn to stay together. Spraying Time: The excessive moisture has prevented many farmers from practising cultural weed control measures. Many of these weeds no doubt will be growing in the cereal crops now that warm weather prevails. Watch your crops closely in order that application of 2.4-D can be made at the most opportune time.

Some farmers are planning this year to use the new MCP in an effort to control hemp nettle. This is a very tough weed to control with chemical without causing injury to the growing crop. Many operators who used it last year report having had good success. The application rates ranged from 8 to 12 ounces acid per acre. This high rate is possible because MCP is very much more tolerant of flax and cereals. It is possible to use it at light rates on legumes to control certain susceptible weeds. It is rather costly to use but in spite of the cost it has certain definite advantages over 2.4-D in some instances.

You will be well advised to check over your spraying equipment and get ready for use without delay when the proper moment arrives to spray your crops. If you have any problems drop in or give me a call and I will be glad to help you or advise you to the very best of my ability.

CHRISTIAN SCIENCE

CHRISTIAN SCIENCE

The spiritual basis of man's true independence will be emphasized at Christian Science services Sunday in the Lesson-Sermo entitled "God". Man's God-given freedom will be brought out in readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, including the following passages (227: 14-16, 24-26): "biscerning the rights of man, we cannot fall to forsee the doom of all oppression. Slavery is not the legitimate state of man. . . Citizen of the world, accept the 'glorious liberty of the children of God', and be free! This is your divine right." Among the passages to be read from the King James version of the Bible is the following: (Isaliah 33: 22): "For the Lord is our judge, the Lord is our king; the Lord is our king

Two friends were discussing their automobile troubles. "What model is your car"? asked one, "It isn't a model" retorted the other. Its a horrible example".

that the family, the church and the world that has learned to pray together will also learn to live together. God has made his move on the human chess board. It's our turn now to make our move — and the clock has not stopped.

[From Our Own Correspondent]

On Saturday evening the high school class of the United Mission-ary Church had a clas party in the College dining room. Mr. Harvey Burgess has taught this class for the last eight years and has built up a spiendid group of young people in it. Quite a number will be ieaving this year for the Young People's Class of the church. This week two wedding receptions will be held in the dining room of the College. The room lends itself well to such events and war happy to accommodate our many friends in this way.

The people of the church were very busy last week cleaning the campus and buildings. The annual camp meeting will soon begin and the conference which precedes it, so that everything around the campus must be in good shape for the meetings. The people will meet again on Saturday to finish what has been begun.

The sections of lawn that Arthur Eby seeded a year ago are certainly looking green and healthy in growth. Very soon we won't be lable to tell the new lawns from the oid. Of course we do not try to shoot son obtainable elsewhere at the new lawns from the oid. Of course we do not try to the flow of the past several years. The deportment of the home economics room has been the new of the lawn mower, but before camp the remainder will be cut also.

The College is putting up a book stand again at the camp. It is quite customary for ministers to the home economics room has been than the condition of the home economics room has been than the condition of the home economics room has been than the colled and the colled and the camp time. The proceeds help in building up the College library. The furniture and equipment of the home economics room has been when the examp time. EAST NOTES

Ten members met at the home of Mrs. Roy McNaughton for the regu-lar meeting of Westcott United Church W.A. Scripture reading and devotional was given by Mrs. Bill Tohm.

Roll call was the "Vacation I En-joyed Most." Business included cemetery clean-up and arrange-ments for the Sunday school picnic. Rev. C. C. Armstrong explained the family camp to be held at east site Kasota, July 22 to Aug. 6.

Mfs A Robertson gave a study on the new Christian citizenship book, "A Guide to Christian Stew-ardship," which was about good-will among men.
